

**Bradley K. Weiner, MD**

Professor, Weill Cornell Medical College  
Chief of Spinal Surgery, The Methodist Hospital  
[BKWeiner@houstonmethodist.org](mailto:BKWeiner@houstonmethodist.org)

Dr. Weiner is Professor, Vice Chairman, and Chief of Spinal Surgery within the Department of Orthopaedics at Methodist Houston Medical Center. He serves many institutional roles including Chair of Business Practices for the Research Institute and Director of The Surgical Advanced Technology Laboratory, which he established four years ago and has garnered nearly \$13 million in grant support.

Nationally he is a leader in microsurgery, ethics, and nanotechnology-based research; serves in leadership roles for orthopaedic and spine societies (North American Spine Society, American Orthopaedic Association, etc.); and is an Editor for the highest impact factor journals in his field. He has published 200 papers, editorials, and book chapters; is currently completing two monographs; and has presented over 200 times nationally and internationally including keynote addresses and visiting professorships.
